

Make your own... musical instruments!

“Who’s ready
to make music?”

Guitar!

You will need:

- Empty tissue box
- Four elastic bands
- Sheet of card
- Safety scissors
- PVA glue, a glue stick or tape
- Short pencil or crayon
- Crayons, pencils, stickers...
or anything your Bingster
wants to decorate with

Instructions:

1. You can print out the guitar template and stick it onto a sheet of A4 card, or draw your own outline of the neck of a guitar onto a piece of card and cut it out.
2. Now your Bingster can draw some guitar strings onto the card. They can be as colourful as your Bingster likes!
3. You can decorate the tissue box too by wrapping it with paper or tissue, painting it or even sprinkling on glitter - the brighter the better!

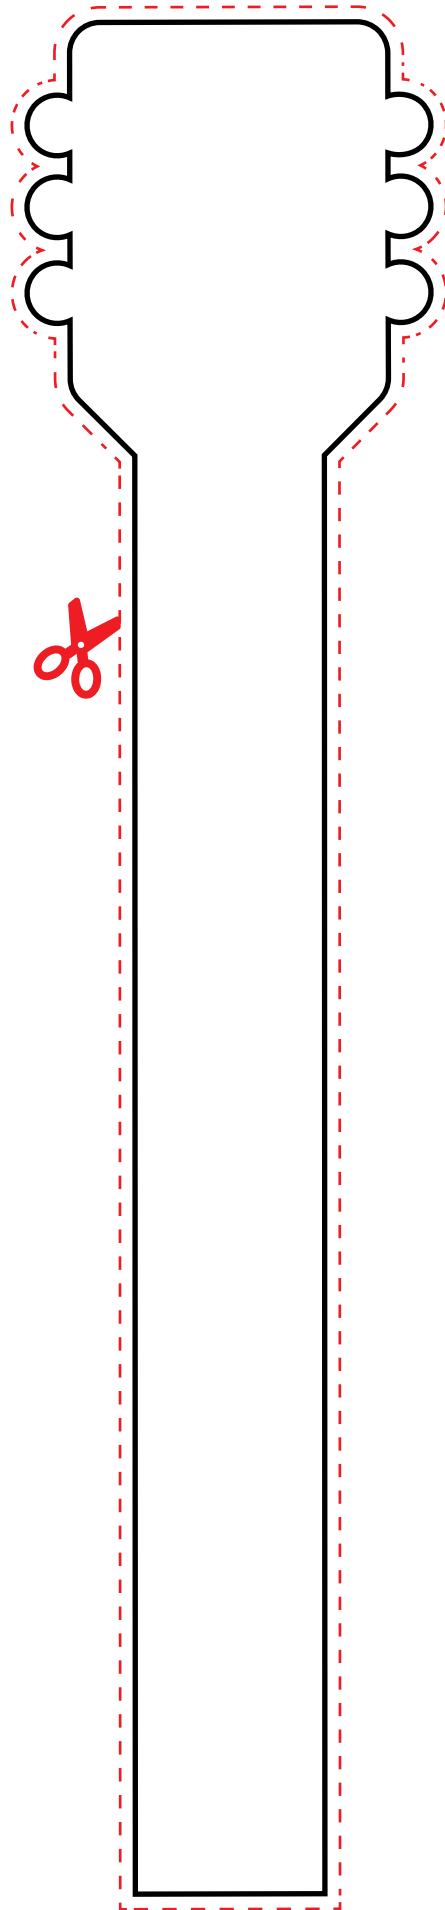

Step 4. Use sticky tape or glue to stick the guitar neck to the bottom of the tissue box and add any finishing touches to the decorations.

Step 5. Push a pencil under the bands at the bottom of the guitar - this will help to make your guitar nice and noisy!

Step 6. Now it's time to jazz up your guitar with some more decorations. We enjoyed adding some glitter and colourful Bing stickers to ours!

Maracas!

You will need:

- Two plastic bottles (smaller bottles work best for little hands)
- Beads, pasta or rice
- Paints, stickers or sparkly bits... whichever is your Bingster's favourite thing to decorate with
- Funnel (optional)

Instructions:

- Make sure your plastic bottles are clean and dry before pouring the beads or dry pasta or rice inside. Only fill 1/3 of each bottle so that there is plenty of room for your Bingster to **shake, shake, shake!**
- Next, screw the bottle lids back on, nice and tightly.
- Now it's time for your Bingster to get creative and decorate their maracas any way they like! You could try painting them and then sticking on some of the leftover pasta.

“Now we are
making music!”

Now your Bingster has a guitar AND a set
of maracas to choose from. It's time to join
Bing, Pando and **Sula**
and make some **music!**
